### **DNA and Genealogy**

The National Geographic Society is offering a chance for you to trace your distant ancestral routes and roots. The Genographic Project aims to collect a broad sample of DNA to track ancient migrations. There is cost involved, about \$99 for a Genographic Project Public Participation Kit. You will be provided with a DNA testing kit and the project will identify your genetic haplography and provide maps of your groups migration pattern. You can select either the male or female DNA line. More info at

[www3.nationalgeographic.com/geographic/journey.html](http://www3.nationalgeographic.com/geographic/journey.html)  
(Yes www3)

Mitochondrial DNA allows you to make connections through your mother. The Sorenson Molecular Genealogical Foundation will send you a free DNA testing kit. There is a charge to process and analyze the test. For more information on the process and a database search, go to [www.smgf.org](http://www.smgf.org)

**HUMOR**

**Have a funny genealogy story, send it in.**

Marshfield Herald Jan. 16, 1915 p. 1

A death certificate is not a matter for humor but the manner in which it is written sometimes is. Below is given a few ill-defined causes of death taken from certificates sent by physicians to the state board of health.

“Went to bed feeling well, but woke up dead”

“Died suddenly at the age of 103. Up to this time he bid fair to reach a ripe old age.”

“Do not know cause of death but patient fully recovered from last illness.”

“Deceased never had been fatally sick.”

“Last illness caused by chronic Rheumatism, but was cured before he died.”

“Deceased died from blood poison caused by a broken ankle, which was remarkable because the automobile struck him between the lamp and the radiator.”

**German and Polish Map Search Site**

<http://www.kartenmeister.com/>

“Welcome to the most comprehensive database of its kind in the world. It contains **71809** locations with over 30,559 name changes once, and 5,500 thrice. All locations are EAST of the

Oder and Neisse rivers and are based on the borders of the eastern provinces in Spring 1918. Included in this database are the following provinces: Eastprussia, including Memel, Westprussia, Brandenburg, Posen, Pomerania, and Silesia. It currently list most towns or points, points being: Mills, some bridges, battlefields, named trees, cenotaphs etc. As more information will be available, (books, maps, your input etc) this database would be updated. I would also ask to advise me of any mistakes you may find at:

ukrickha+memlane.com ....Please substitute the + sign with an @ when emailing

You have several ways or criteria to search.

1. German name
2. Older German name
3. Kreis/County
4. By the next larger town, (this is a proximity search.)
5. Today's Polish, Russian or Lithuanian name.
6. by Family Name

Umlaute/Umlauts ( ü , ö , ä ). for English keyboards ONLY You may enter the letters as: "a, "o, "u. Also the German ß is substituted with a sz. If you can't find a location, try ss.

For my Polish visitors: No consideration is given to any accents of the Polish language”

Further instructions for use are found on the home page.

 Yesterday's and today's newspapers are reporting on the unsealing of Nazi-era documents in the archive of the International Tracing Service.

Two of the articles that are available online without a subscription are

President's Message Dear Friends,  
Another holiday season and another year has just passed by all of us. I hope that both were good for you, your family and your family history pursuits. To begin the New Year, our group's program chair, Vickie Schnitzler, has arranged for several interesting presentations. At the **January 25th** meeting, two leaders of the Stevens Point Chapter Daughters of the American Revolution (DAR) will discuss with us requirements for membership in the DAR or Sons of the American Revolution (SAR). In addition, they will review the application process and genealogical resources available through the DAR. Our

speakers, Judy Mason and Cynthia Scherwinski are both avid genealogists so their presentation will be of interest to all.

The **February 22nd** meeting will focus on efforts of a local group now publishing the second collection of Marshfield Community Stories. Doug Seubert, a member of that group will discuss that project and share with each of us tips on writing our own family stories.

Then at the **March 22nd** meeting, Vickie Schnitzler, who is also the Central District Representative for the Wisconsin State Genealogical Society, will update us on the activities and resources of our state organization. Each of these presentations should add to your knowledge and skills as a family history researcher. I encourage you to attend. I also want to begin this year with a note of congratulations to the Marshfield Public Library staff for their efforts compiling and publishing a new bibliography of Genealogical and Local History Materials held by the library. Not surprising to those of us familiar with the wonderful collection here at Marshfield, the bibliography alone is 123 pages. A special thank you goes out to Ken Wood for his efforts compiling the data, and to Charlotte Kruse whose gracious support made completion of this project possible. As you plan your family history research this New Year, I hope that it includes your continued participation in the Marshfield Area Genealogy Group. I look forward to seeing you in the months ahead. Good luck with all your genealogical pursuits this year. As Always, Schnitz
